

## OUR CLIENTS SPEAK

"I've worked with Haritham Technologies in the past, they have helped us with the development of some web components. I've always found them to be honorable, reliable, and produce work of the highest quality. They are also flexible when it comes to requirements definition phase and are open to changing requirements, in this sense they are agile and customer centric, as well as precise and accurate. I would have no hesitation in working with them again, and look forward to doing so in the future"

**Neil Langmead**, CEO, Emenda, UK

"I have had the pleasure of working with Haritham on some challenging and complex projects. To state that I was quite happy by their attention to requirements, scalable designs, precise execution and delivery on time would be an understatement. They actually delighted me by demonstrating a par-excellence performance in the entire gamut of System Development Lifecycle"

**Pradeep Menon**, Executive Vice President and Director, Quadrant Risk Management Middle East FZE

"I really want to say thanks for the outstanding service and support Haritham gave us to design and develop our website [www.itsmp.com](http://www.itsmp.com). I appreciate their prompt and professional approach. In a time when everyone seems to be cutting back on service and support, it's refreshing to run into a company such as Haritham. We are very happy with the level of service from them and would recommend them to anyone starting a new business or updating their web presence. I also take this opportunity to wish them all the best for all their future endeavors"

**Muthu Kumar Raju**, Director - ITSM Servicest and Solutions, ITSM Partnership Pty Ltd, Australia

"On behalf of the North East Oklahoma American Chemical Society, I would like to extend our deepest gratitude for designing our Penstasectional conference website. We are very happy with all the work that your team has put in to get our conference website up and running. Everytime, the responses to the fixes that we have sought were on a real time basis. The conference was a big hit. We appreciate your professionalism and look forward to work with you in the near future"

**SundaraRajan Uppili**, Chair, 56th Annual Pentasectional ACS Conference, Oklahoma

**Haritham Technologies**  
Technology & Beyond...

Achieve positive  
lasting change with our solutions.  
We are your IT partners!

## ORIGIN

**Haritham Technologies (Haritham)** was founded by a team of experienced professionals with cross functional expertise and creative design consultants. HARITHAM started its operations in February 2003 with a strong focus on quality and process improvement using Information and Communication Technologies (ICT).

HARITHAM has been acting as an outsourcing delivery team for a few Information Technology/Information Security companies in **India, UK, Middle East, Australia and Europe.**

Based in the business hub of Coimbatore in Southern India, the development center is able to attract the best talents in the Information Technology industry. To enhance the company's delivery model Haritham is eyeing for a presence of a **Disaster Recovery Center in Chennai & Bangalore.**

**“ Founded by a team of experienced professionals with cross functional expertise and creative design consultants ”**

## OUR BUSINESS VISION

Haritham aims to become the market leader and contribute to sustainable development through:

- **Sound technology**
- Market focus - Small and middle establishments (SME's), and Tier1 institutions
- Constant learning of technologies, latest concepts and business process
- We have the humility and hunger to learn
- **Providing significant and quality results**
- Expanding in new areas built on our technologies, competence and customer interests
- Maintaining highest standards of Honesty, Integrity and Loyalty
- Promoting and implementing creative and innovative ideas and solutions
- In simpler words **“TO BE THE BEST IN BUSINESS”**

## OUR BUSINESS VALUES

We recognize that

- We are privileged to **contribute to our customers growth**
- We enjoy working hand in hand with our customers at every step
- We take **responsibility for “QUALITY”**
- We believe in adapting quickly to any kind of changes because we know that **“Change is constant”**
- We ensure value addition to our customers
- We also **believe in transparent communication**
- We remain as an extended IT arm of our client organization and carry their vision and values.
